FOREWORD

DEFINITIONS

When used in these standards or elsewhere in the contract, the following terms, or pronouns used in place of them, shall have the meaning ascribed to them in this section, unless it is apparent from the context that a different meaning is intended:

The term Board or Commission shall mean the members of the Board or Commission of Water Supply of the various island water jurisdictions in the State of Hawaii.

The term Contract shall mean the written agreement covering the construction of the project by the Contractor, including the furnishing of labor, materials and equipment in connection therewith. It shall include the notice to contractors, the bid, wage schedule, list of subcontractors, the award, the special provisions, the plans, the specifications, the bond, any addendum and any written order. It shall also include all amendments to the contract by supplemental agreement thereto in writing.

The term Contractor shall mean the party (individual, corporation, joint venture, or partnership) who has entered into the contract with the Department of Water Supply.

The term County shall mean the City and County of Honolulu, County of Hawaii, County of Kauai, or the County of Maui.

The term Engineer shall mean the person or firm who is responsible for the design of the project and who prepared the plans.

The term "Kauai", "Oahu", "Maui", or "Hawaii" shall mean the Department of Water Supply of the respective island water jurisdictions in the State of Hawaii.

The term Mains shall mean water pipelines within the City/County water system, to include Transmission Mains (from its source or storage to the distribution system) and Distribution Mains.

The term Manager shall mean the Manager, Director, or Manager and Chief Engineer of the Department of Water Supply or his authorized representative.

The term Owner or Department shall mean the Department of Water Supply of the various island water jurisdictions in the State of Hawaii.

The term Project shall mean the structure or improvements to be constructed in whole or in part through the performance of this contract.

The term State shall mean the State of Hawaii.

The term Work shall mean all equipment, materials, operations and incidental activities necessary for the completion of any part or all of the project.

SCOPE

This publication shall govern the design and construction of water system facilities under the jurisdiction of the Water Departments of the various counties in the State of Hawaii.

Requirements peculiar to each Department are reflected in these standards by tables and special notes. Also certain features of water system installations which do not readily lend themselves to standardization but are designed and installed according to the special requirements applying to each case shall be subject to special review and approval of the Manager.

Any feature of design, materials to be installed, or construction methods to be used for any installation within the scope of the Water System Standards, but not specifically described herein, shall be of good quality, according to accepted practice, and shall meet with the approval of the Manager.

The Water System Standards are subdivided as follows:

Foreword	
Division 100	Planning
Division 200	Materials
Division 300	Construction
Division 400	Approved Material List and Standard Details
Division 500	Volume 3 External Corrosion Control Standards (Not applicable for Hawaii and Kauai). Refer to the "WATER SYSTEM EXTERNAL CORROSION CONTROL STANDARDS", VOLUME 3, DATED 1991 and all subsequent amendments and additions (under separate cover and not included in these standards)

The "HAWAII ADMINISTRATIVE RULES, TITLE 3", Department of Accounting and General Services, is by reference incorporated herein and made part of these "Water System Standards". The term "HAR" used in these "Water System Standards" refers to the "HAWAII ADMINISTRATIVE RULES, TITLE 3".

For the **Department of Water Supply, County of Hawaii**, the "GENERAL REQUIREMENTS AND COVENANTS FOR THE DEPARTMENT OF WATER SUPPLY, COUNTY OF HAWAII" is by reference incorporated herein and made a part of these "WATER SYSTEM STANDARDS."

For the **Department of Water, County of Kauai**, the "GENERAL PROVISIONS FOR CONSTRUCTION CONTRACTS OF THE DEPARTMENT OF WATER, COUNTY OF KAUAI" is by reference incorporated herein and made a part of these "WATER SYSTEM STANDARDS."

For the **Department of Water Supply, County of Maui**, the "GENERAL CONDITIONS FOR FORMAL CONSTRUCTION BIDS FOR THE COUNTY OF MAUI" is by reference incorporated herein and made a part of these "WATER SYSTEM STANDARDS."

For the **Board of Water Supply, City and County of Honolulu**, the "GENERAL INSTRUCTIONS TO BIDDERS" of the City and County of Honolulu, Department of Budget and Fiscal Services, City and County of Honolulu, revised July 1999, and the "GENERAL CONDITIONS OF CONSTRUCTION CONTRACTS OF THE CITY AND COUNTY OF HONOLULU," Department of Budget and Fiscal Services, revised July 1999, are by reference incorporated herein and made a part of these "WATER SYSTEM STANDARDS".

CONFORMITY AND USE

All design and construction within the scope of the Water System Standards shall be in accordance with the requirements herein, unless specifically modified or required otherwise by the Manager.

Any statement on the plans and specifications requiring materials and construction to be in accordance with the Water System Standards shall have the effect of incorporating all the provisions of the Standards.

AMENDMENTS

The Manager has the authority to make changes to the Water System Standards based on the latest engineering, technology, practices and requirements.

Where official changes, additions, or amendments to the Water System Standards are made, printed copies thereof will be made available to interested parties at the offices of the Water Departments.

Official changes, additions or amendments to the Water System Standards in effect on the date of invitation for bids form a part of the Water System Standards.

REFERENCE SPECIFICATIONS

When reference is made to known standard specifications, the most recently adopted and published edition of such specifications on the date of the notice to bidders is contemplated, unless otherwise specified.

ABBREVIATIONS

The following abbreviations shall refer to the technical society, organization, body, code, rules or standards, listed opposite each abbreviation:
